AN ACT

Requiring the Department of Health and Social Services to adopt standards for the approval of and to approve certain training programs relating to the possession of epinephrine and the administration of epinephrine in emergency situations; and authorizing certain individuals to obtain a prescription for epinephrine, purchase epinephrine, and administer epinephrine in emergency situations.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

THE ACT Follows ON PAGE 1
AN ACT

Requiring the Department of Health and Social Services to adopt standards for the approval of
and to approve certain training programs relating to the possession of epinephrine and the
administration of epinephrine in emergency situations; and authorizing certain individuals to
obtain a prescription for epinephrine, purchase epinephrine, and administer epinephrine in
emergency situations.

* Section 1. AS 17 is amended by adding a new chapter to read:

   Chapter 22. Use of Epinephrine in Emergency Situations.

   Sec. 17.22.010. Prescription, purchase, and administration of epinephrine
   by a trained individual. An individual who is 18 years of age or older may obtain a
   prescription for, purchase, and, in an emergency situation, administer epinephrine
   using

   (1) an auto-injector, if the individual has successfully completed a
Sec. 17.22.020. Approval of training programs. (a) The department shall adopt standards for the approval of training programs for the use of
(1) epinephrine auto-injectors; and
(2) epinephrine ampules.
(b) The department shall approve an auto-injector training program that meets standards adopted under (a)(1) of this section. The standards must require an epinephrine auto-injector program to provide training in
(1) techniques on how to recognize symptoms of severe asthmatic or allergic reactions, including anaphylaxis;
(2) standards and procedures for the storage of epinephrine auto-injectors and administration of epinephrine using auto-injectors; and
(3) emergency follow-up procedures.
(c) The department shall approve an epinephrine ampule training program that meets standards adopted under (a)(2) of this section. The standards must require an epinephrine ampule program to provide training in
(1) techniques on how to recognize symptoms of severe asthmatic or allergic reactions, including anaphylaxis;
(2) standards and procedures for the storage of epinephrine ampules and administration of epinephrine using ampules; and
(3) emergency follow-up procedures.
Sec. 17.22.030. Applicability. This chapter does not apply to a person who is authorized under another law to administer epinephrine or to a person who is prescribed epinephrine for personal use.
Sec. 17.22.040. Liability of certified individual. A claim for relief may not be brought against an individual who has successfully completed a training program approved by the department under AS 17.22.020 for an act or omission relating to the administration of epinephrine to another individual in an emergency situation if the individual who completed the training program acted in good faith under the authority
Sec. 17.22.090. Definitions. In this chapter,

(1) "department" means the Department of Health and Social Services;

(2) "emergency situation" means a circumstance where an individual experiences, or appears to experience, a severe asthmatic or allergic reaction, including anaphylaxis, that requires the administration of epinephrine to avoid severe injury or death and where a certified or licensed health care provider authorized to administer epinephrine is not reasonably available.
