(a) For a tax year beginning after December 31, 2013, a taxpayer may apply a credit against the tax due under this chapter for a qualified oil and gas service industry expenditure incurred in the state. The total amount of credit a taxpayer may receive in a tax year may not exceed the lesser of 10 percent of qualified oil and gas service industry expenditures incurred in the state during the tax year or $10,000,000.

(b) A taxpayer may not apply more than $10,000,000 in tax credits under this section in a tax year. A tax credit or portion of a tax credit under this section may not be used to reduce the taxpayer's tax liability under this chapter below zero. Any unused tax credit or portion of a tax credit under this section may be applied in later tax years, except that any unused tax credit or portion of a tax credit may not be carried forward for more than five tax years immediately following the tax year in which the qualified oil and gas service industry expenditures were incurred.

(c) An expenditure that is the basis of the credit under this section may not be the basis for

   (1) a deduction against the tax levied under this chapter;

   (2) a credit or deduction under another provision of this title; or

   (3) any federal credit claimed under this title.

(d) Notwithstanding any contrary provision of AS 40.25.100(a) or AS 43.05.230(e), for a year that three or more taxpayers claim a tax credit under this section, the department may publish the aggregated amount of tax credits claimed under this section and a description of the qualified oil and gas service industry expenditures that were the basis for a tax credit under this section.

(e) In this section,

   (1) "manufacture" means to perform substantial industrial operations in the state to transform raw material into tangible personal property with a useful life of three years or more for use in the exploration for, development of, or production of oil or gas deposits;

   (2) "modification" means an adjustment, equipping, or other alteration to existing tangible personal property that has a useful life of three years or more and is for use in the exploration for, development of, or production of oil or gas deposits;
"modification" does not include minor product alterations or inventory activities;

(3) "qualified oil and gas service industry expenditure" means an expenditure directly attributable to an in-state manufacture or in-state modification of tangible personal property used in the exploration for, development of, or production of oil or gas deposits, but does not include components or equipment used for or in the process of that manufacturing or modification.

* Sec. 4. AS 43.55.011(e) is amended to read:

(e) There is levied on the producer of oil or gas a tax for all oil and gas produced each calendar year from each lease or property in the state, less any oil and gas the ownership or right to which is exempt from taxation or constitutes a landowner's royalty interest. Except as otherwise provided under (f), (j), (k), (o), and (p) of this section, [THE TAX IS EQUAL TO]

(1) before January 1, 2014, the tax is equal to the sum of

(A) the annual production tax value of the taxable oil and gas as calculated under AS 43.55.160(a)(1) multiplied by 25 percent; and

(B) [(2)] the sum, over all months of the calendar year, of the tax amounts determined under (g) of this section;

(2) on and after January 1, 2014, the tax is equal to the annual production tax value of the taxable oil and gas as calculated under AS 43.55.160(a)(1) multiplied by 35 percent.

* Sec. 5. AS 43.55.011(g) is amended to read:

(g) For each month of a calendar year before 2014 for which the producer's average monthly production tax value under AS 43.55.160(a)(2) of a BTU equivalent barrel of the taxable oil and gas is more than $30, the amount of tax for purposes of (e)(1)(B) [(e)(2)] of this section is determined by multiplying the monthly production tax value of the taxable oil and gas produced during the month by the tax rate calculated as follows:

(1) if the producer's average monthly production tax value of a BTU equivalent barrel of the taxable oil and gas for the month is not more than $92.50, the tax rate is 0.4 percent multiplied by the number that represents the difference between that average monthly production tax value of a BTU
equivalent barrel and $30; or

(2) if the producer's average monthly production tax value of a [PER] BTU equivalent barrel of the taxable oil and gas for the month is more than $92.50, the tax rate is the sum of 25 percent and the product of 0.1 percent multiplied by the number that represents the difference between the average monthly production tax value of a [PER] BTU equivalent barrel and $92.50, except that the sum determined under this paragraph may not exceed 50 percent.

* Sec. 6. AS 43.55.011(i) is amended to read:

(i) There is levied on the producer of oil or gas a tax for all oil and gas produced each calendar year from each lease or property in the state the ownership or right to which constitutes a landowner's royalty interest, except for oil and gas the ownership or right to which is exempt from taxation. The provisions of this subsection apply to a landowner's royalty interest as follows:

(1) the tax levied for oil is equal to five percent of the gross value at the point of production of the oil;

(2) the tax levied for gas is equal to 1.667 percent of the gross value at the point of production of the gas;

(3) if the department determines that, for purposes of reducing the producer's tax liability under (1) or (2) of this subsection, the producer has received or will receive consideration from the royalty owner offsetting all or a part of the producer's royalty obligation, other than a deduction under AS 43.55.020 related to a settlement with a royalty owner [AS 43.55.020(d)] of the amount of a tax paid, then, notwithstanding (1) and (2) of this subsection, the tax is equal to 25 percent of the gross value at the point of production of the oil and gas.

* Sec. 7. AS 43.55.011(o) is amended to read:

(o) Notwithstanding other provisions of this section, for a calendar year before 2022, the tax levied under (e) of this section for each 1,000 cubic feet of gas for gas produced from a lease or property outside the Cook Inlet sedimentary basin and used in the state, other than gas subject to (p) of this section, may not exceed the amount of tax for each 1,000 cubic feet of gas that is determined under (j)(2) of this section.

* Sec. 8. AS 43.55.011(p) is amended to read:
For the seven years immediately following the commencement of commercial production of oil or gas produced from leases or properties in the state that are outside the Cook Inlet sedimentary basin and that do not include land located north of 68 degrees North latitude, where that commercial production began after December 31, 2012, and before January 1, 2027, the levy of tax under (e) of this section for oil and gas may not exceed four percent of the gross value at the point of production.

(A) the date it is refunded or is applied to an underpayment; or

(B) March 31 following the calendar year of production;

(2) except as provided under (1) of this subsection, interest with respect to an overpayment is allowed only on any net overpayment of the payments required under (a) of this section that remains after the later of March 31 following the calendar year of production or the date that the statement required under AS 43.55.030(a) is filed;

(3) interest is allowed under (2) of this subsection only from a date that is 90 days after the later of March 31 following the calendar year of production or the date that the statement required under AS 43.55.030(a) is filed; interest is not allowed if the overpayment was refunded within the 90-day period;

(4) interest under (2) and (3) of this subsection is paid at the rate and in the manner provided in AS 43.05.225(1).

If the total deductions of installment payments of estimated tax for a calendar year exceed the actual tax for that calendar year, the producer shall, before April 1 of the following year, refund the excess to the royalty owner. Unless otherwise agreed between the producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on taxable royalty oil and gas for a calendar year, other than oil and gas the ownership or right to which constitutes a landowner's royalty interest, is considered to be the gross value at the point of production of the taxable royalty oil and gas produced during the calendar year multiplied by a figure that is a quotient, in
which

(1) the numerator is the producer's total tax liability under AS 43.55.011(e) for the calendar year of production; and

(2) the denominator is the total gross value at the point of production of the oil and gas taxable under AS 43.55.011(e) produced by the producer from all leases and properties in the state during the calendar year.

* Sec. 14. AS 43.55.023(a) is amended to read:

(a) A producer or explorer may take a tax credit for a qualified capital expenditure as follows:

(1) notwithstanding that a qualified capital expenditure may be a deductible lease expenditure for purposes of calculating the production tax value of oil and gas under AS 43.55.160(a), unless a credit for that expenditure is taken under AS 38.05.180(i), AS 41.09.010, AS 43.20.043, or AS 43.55.025, a producer or explorer that incurs a qualified capital expenditure may also elect to apply a tax credit against a tax levied by AS 43.55.011(e) in the amount of 20 percent of that expenditure; [HOWEVER, NOT MORE THAN HALF OF THE TAX CREDIT MAY BE APPLIED FOR A SINGLE CALENDAR YEAR;]

(b) **Before January 1, 2014,** a [A] producer or explorer may elect to take a tax credit in the amount of 25 percent of a carried-forward annual loss. **For lease expenditures incurred on and after January 1, 2014, and before January 1, 2016,**
to explore for, develop, or produce oil or gas deposits located north of 68 degrees
North latitude, a producer or explorer may elect to take a tax credit in the
amount of 45 percent of a carried-forward annual loss. For lease expenditures
incurred on and after January 1, 2016, to explore for, develop, or produce oil or
gas deposits located north of 68 degrees North latitude, a producer or explorer
may elect to take a tax credit in the amount of 35 percent of a carried-forward
annual loss. For lease expenditures incurred on or after January 1, 2014, to
explore for, develop, or produce oil or gas deposits located south of 68 degrees

amount of 25 percent of a carried-forward annual loss. A credit under this
subsection may be applied against a tax levied by AS 43.55.011(e). For purposes of
this subsection, a carried-forward annual loss is the amount of a producer's or
explorer's adjusted lease expenditures under AS 43.55.165 and 43.55.170 for a
previous calendar year that was not deductible in calculating production tax values for
that calendar year under AS 43.55.160.

* Sec. 16. AS 43.55.023(d) is amended to read:

(d) A [EXCEPT AS LIMITED BY (i) OF THIS SECTION, A] person that is
entitled to take a tax credit under this section that wishes to transfer the unused credit
to another person or obtain a cash payment under AS 43.55.028 may apply to the
department for a transferable tax credit certificate [CERTIFICATES]. An application
under this subsection must be in a form prescribed by the department and must include
supporting information and documentation that the department reasonably requires.
The department shall grant or deny an application, or grant an application as to a lesser
amount than that claimed and deny it as to the excess, not later than 120 days after the
latest of (1) March 31 of the year following the calendar year in which the qualified
capital expenditure or carried-forward annual loss for which the credit is claimed was
incurred; (2) the date the statement required under AS 43.55.030(a) or (e) was filed for
the calendar year in which the qualified capital expenditure or carried-forward annual
loss for which the credit is claimed was incurred; or (3) the date the application was
received by the department. If, based on the information then available to it, the
department is reasonably satisfied that the applicant is entitled to a credit, the
department shall issue the applicant a [TWO] transferable tax credit certificate for [CERTIFICATES, EACH FOR HALF OF] the amount of the credit. [THE CREDIT SHOWN ON ONE OF THE TWO CERTIFICATES IS AVAILABLE FOR IMMEDIATE USE. THE CREDIT SHOWN ON THE SECOND OF THE TWO CERTIFICATES MAY NOT BE APPLIED AGAINST A TAX FOR A CALENDAR YEAR EARLIER THAN THE CALENDAR YEAR FOLLOWING THE CALENDAR YEAR IN WHICH THE CERTIFICATE IS ISSUED, AND THE CERTIFICATE MUST CONTAIN A CONSPICUOUS STATEMENT TO THAT EFFECT.] A certificate issued under this subsection does not expire.

* Sec. 17. AS 43.55.023(g) is amended to read:

(g) The issuance of a transferable tax credit certificate under (d) of this section or former (m) of this section or the purchase of a certificate under AS 43.55.028 does not limit the department's ability to later audit a tax credit claim to which the certificate relates or to adjust the claim if the department determines, as a result of the audit, that the applicant was not entitled to the amount of the credit for which the certificate was issued. The tax liability of the applicant under AS 43.55.011(e) and 43.55.017 - 43.55.180 is increased by the amount of the credit that exceeds that to which the applicant was entitled, or the applicant's available valid outstanding credits applicable against the tax levied by AS 43.55.011(e) are reduced by that amount. If the applicant's tax liability is increased under this subsection, the increase bears interest under AS 43.05.225 from the date the transferable tax credit certificate was issued. For purposes of this subsection, an applicant that is an explorer is considered a producer subject to the tax levied by AS 43.55.011(e).

* Sec. 18. AS 43.55.023(n) is amended to read:

(n) For the purposes of (l) [AND (m)] of this section, a well lease expenditure incurred in the state south of 68 degrees North latitude is a lease expenditure that is

(1) directly related to an exploration well, a stratigraphic test well, a producing well, or an injection well other than a disposal well, located in the state south of 68 degrees North latitude, if the expenditure is a qualified capital expenditure and an intangible drilling and development cost authorized under 26 U.S.C. (Internal Revenue Code), as amended, and 26 C.F.R. 1.612-4, regardless of the elections made...
under 26 U.S.C. 263(c); in this paragraph, an expenditure directly related to a well includes an expenditure for well sidetracking, well deepening, well completion or recompletion, or well workover, regardless of whether the well is or has been a producing well; or

(2) an expense for seismic work conducted within the boundaries of a production or exploration unit.

* Sec. 19. AS 43.55.023 is amended by adding a new subsection to read:

(p) Before January 1, 2014, the provisions of (d) of this section may be limited by (i) of this section.

* Sec. 20. AS 43.55.024(e) is amended to read:

(e) On written application by a producer that includes any information the department may require, the department shall determine whether the producer qualifies for a calendar year under (a) and (c) of this section. To qualify under (a) and (c) of this section, a producer must demonstrate that its operation in the state or its ownership of an interest in a lease or property in the state as a distinct producer would not result in the division among multiple producer entities of any production tax liability under AS 43.55.011(e) that reasonably would be expected to be attributed to a single producer if the tax credit provisions of (a) or (c) of this section did not exist.

* Sec. 21. AS 43.55.024 is amended by adding new subsections to read:

(i) A producer may apply against the producer's tax liability for the calendar year under AS 43.55.011(e) a tax credit of $5 for each barrel of oil taxable under AS 43.55.011(e) that meets one or more of the criteria in AS 43.55.160(f) or (g) and that is produced during a calendar year after December 31, 2013. A tax credit authorized by this subsection may not reduce a producer's tax liability for a calendar year under AS 43.55.011(e) below zero.

(j) A producer may apply against the producer's tax liability for the calendar year under AS 43.55.011(e) a tax credit in the amount specified in this subsection for each barrel of oil taxable under AS 43.55.011(e) that does not meet any of the criteria in AS 43.55.160(f) or (g) and that is produced during a calendar year after December 31, 2013, from leases or properties north of 68 degrees North latitude. A tax credit under this subsection may not reduce a producer's tax liability for a calendar year under AS 43.55.011(e) below zero.
year under AS 43.55.011(e) below the amount calculated under AS 43.55.011(f). The amount of the tax credit for a barrel of taxable oil subject to this subsection produced during a month of the calendar year is

(1) $8 for each barrel of taxable oil if the average gross value at the point of production for the month is less than $80 a barrel;

(2) $7 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $80 a barrel, but less than $90 a barrel;

(3) $6 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $90 a barrel, but less than $100 a barrel;

(4) $5 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $100 a barrel, but less than $110 a barrel;

(5) $4 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $110 a barrel, but less than $120 a barrel;

(6) $3 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $120 a barrel, but less than $130 a barrel;

(7) $2 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $130 a barrel, but less than $140 a barrel;

(8) $1 for each barrel of taxable oil if the average gross value at the point of production for the month is greater than or equal to $140 a barrel, but less than $150 a barrel;

(9) zero if the average gross value at the point of production for the month is greater than or equal to $150 a barrel.

*Sec. 22.* AS 43.55.025(a) is amended to read:

(a) Subject to the terms and conditions of this section, a credit against the production tax levied by AS 43.55.011(e) is allowed for exploration expenditures that
qualify under (b) of this section in an amount equal to one of the following:

   (1) 30 percent of the total exploration expenditures that qualify only under (b) and (c) of this section;

   (2) 30 percent of the total exploration expenditures that qualify only under (b) and (d) of this section;

   (3) 40 percent of the total exploration expenditures that qualify under (b), (c), and (d) of this section;

   (4) 40 percent of the total exploration expenditures that qualify only under (b) and (e) of this section;

   (5) 80, 90, or 100 percent, or a lesser amount described in (l) of this section, of the total exploration expenditures described in (b)(1) and (2) of this section and not excluded by (b)(3) and (4) of this section that qualify only under (l) of this section;

   (6) the lesser of $25,000,000 or 80 percent of the total exploration drilling expenditures described in (m) of this section and that qualify under (b) and (c)(1), (c)(2)(A), and (c)(2)(C) [(c)] of this section; or

   (7) the lesser of $7,500,000 or 75 percent of the total seismic exploration expenditures described in (n) of this section and that qualify under (b) of this section.

* Sec. 23. AS 43.55.025(b) is amended to read:

   (b) To qualify for the production tax credit under (a) of this section, an exploration expenditure must be incurred for work performed after June 30, 2008, and before July 1, 2016, except that to qualify for the production tax credit under (a)(1), (2), (3), or (4) of this section for exploration conducted outside of the Cook Inlet sedimentary basin and south of 68 degrees North latitude, an exploration expenditure must be incurred for work performed after June 30, 2008, and before January 1, 2022, and

   (1) may be for seismic or other geophysical exploration costs not connected with a specific well;

   (2) if for an exploration well,

      (A) must be incurred by an explorer that holds an interest in the
exploration well for which the production tax credit is claimed;

(B) may be for either a well that encounters an oil or gas deposit or a dry hole;

(C) must be for a well that has been completed, suspended, or abandoned at the time the explorer claims the tax credit under (f) of this section; and

(D) must be for goods, services, or rentals of personal property reasonably required for the surface preparation, drilling, casing, cementing, and logging of an exploration well, and, in the case of a dry hole, for the expenses required for abandonment if the well is abandoned within 18 months after the date the well was spudded;

(3) may not be for administration, supervision, engineering, or lease operating costs; geological or management costs; community relations or environmental costs; bonuses, taxes, or other payments to governments related to the well; costs, including repairs and replacements, arising from or associated with fraud, wilful misconduct, gross negligence, criminal negligence, or violation of law, including a violation of 33 U.S.C. 1319(c)(1) or 1321(b)(3) (Clean Water Act); or other costs that are generally recognized as indirect costs or financing costs; and

(4) may not be incurred for an exploration well or seismic exploration that is included in a plan of exploration or a plan of development for any unit before May 14, 2003.

* Sec. 24. AS 43.55.025(m) is amended to read:

(m) The persons that drill the first four exploration wells in the state and within the areas described in (o) of this section on state lands, private lands, or federal onshore lands for the purpose of discovering oil or gas that penetrate and evaluate a prospect in a basin described in (o) of this section are eligible for a credit under (a)(6) of this section. A credit under this subsection may not be taken for more than two exploration wells in a single area described in (o)(1) - (6) of this section. Exploration expenditures eligible for the credit in this subsection must be incurred for work performed after June 1, 2012, and before July 1, 2016. A person planning to drill an exploration well on private land and to apply for a credit under this subsection shall
obtain written consent from the owner of the oil and gas interest for the full public release of all well data after the expiration of the confidentiality period applicable to information collected under (f) of this section. The written consent of the owner of the oil and gas interest must be submitted to the commissioner of natural resources before approval of the proposed exploration well. In addition to the requirements in (c)(1), (c)(2)(A), and (c)(2)(C) [(c)] of this section and submission of the written consent of the owner of the oil and gas interest, a person planning to drill an exploration well shall obtain approval from the commissioner of natural resources before the well is spudded. The commissioner of natural resources shall make a written determination approving or rejecting an exploration well within 60 days after receiving the request for approval or as soon as is practicable thereafter. Before approving the exploration well, the commissioner of natural resources shall consider the following: the location of the well; the proximity to a community in need of a local energy source; the proximity of existing infrastructure; the experience and safety record of the explorer in conducting operations in remote or roadless areas; the projected cost schedule; whether seismic mapping and seismic data sufficiently identify a particular trap for exploration; whether the targeted and planned depth and range are designed to penetrate and fully evaluate the hydrocarbon potential of the proposed prospect and reach the level below which economic hydrocarbon reservoirs are likely to be found, or reach 12,000 feet or more true vertical depth; and whether the exploration plan provides for a full evaluation of the wellbore below surface casing to the depth of the well. Whether the exploration well for which a credit is requested under this subsection is located within an area and a basin described under (o) of this section shall be determined by the commissioner of natural resources and reported to the commissioner. A taxpayer that obtains a credit under this subsection may not claim a tax credit under AS 43.55.023 or another provision in this section for the same exploration expenditure.

* Sec. 25. AS 43.55.028(e) is amended to read:

(e) The department, on the written application of a person to whom a transferable tax credit certificate has been issued under AS 43.55.023(d) or former AS 43.55.023(m) [(m)] or to whom a production tax credit certificate has been issued
under AS 43.55.025(f), may use available money in the oil and gas tax credit fund to purchase, in whole or in part, the certificate if the department finds that

(1) the calendar year of the purchase is not earlier than the first calendar year for which the credit shown on the certificate would otherwise be allowed to be applied against a tax;

(2) the applicant does not have an outstanding liability to the state for unpaid delinquent taxes under this title;

(3) the applicant's total tax liability under AS 43.55.011(e), after application of all available tax credits, for the calendar year in which the application is made is zero;

(4) the applicant's average daily production of oil and gas taxable under AS 43.55.011(e) during the calendar year preceding the calendar year in which the application is made was not more than 50,000 BTU equivalent barrels; and

(5) the purchase is consistent with this section and regulations adopted under this section.

* Sec. 26. AS 43.55.028(g) is amended to read:

(g) The department may adopt regulations to carry out the purposes of this section, including standards and procedures to allocate available money among applications for purchases under this chapter and claims for refunds and payments under AS 43.20.046 or 43.20.047 when the total amount of the applications for purchase and claims for refund exceed the amount of available money in the fund. The regulations adopted by the department may not, when allocating available money in the fund under this section, distinguish an application for the purchase of a credit certificate issued under former AS 43.55.023(m) or a claim for a refund or payment under AS 43.20.046 or 43.20.047.

* Sec. 27. AS 43.55.030(e) is amended to read:

(e) An explorer or producer that incurs a lease expenditure under AS 43.55.165 or receives a payment or credit under AS 43.55.170 during a calendar year but does not produce oil or gas from a lease or property in the state during the calendar year shall file with the department, on March 31 of the following year, a statement, under oath, in a form prescribed by the department, giving, with other
information required, the following:

(1) the explorer's or producer's qualified capital expenditures, as defined in AS 43.55.023, other lease expenditures under AS 43.55.165, and adjustments or other payments or credits under AS 43.55.170; and

(2) if the explorer or producer receives a payment or credit under AS 43.55.170, calculations showing whether the explorer or producer is liable for a tax under AS 43.55.160(d) or 43.55.170(b) and, if so, the amount.

* Sec. 28. AS 43.55.160(a) is amended to read:

* Sec. 29. AS 43.55.160 is amended by adding new subsections to read:

(f) On and after January 1, 2014, in the calculation of an annual production tax value of a producer under (a)(1) of this section, the gross value at the point of production of oil or gas produced from a lease or property north of 68 degrees North latitude meeting one or more of the following criteria is reduced by 20 percent: (1) the oil or gas is produced from a lease or property that does not contain a lease that was within a unit on January 1, 2003; (2) the oil or gas is produced from a participating area established after December 31, 2011, that is within a unit formed under AS 38.05.180(p) before January 1, 2003, if the participating area does not contain a reservoir that had previously been in a participating area established before December 31, 2011; (3) the oil or gas is produced from acreage that was added to an existing participating area by the Department of Natural Resources on and after January 1, 2014, and the producer demonstrates to the department that the volume of oil or gas produced is from acreage added to an existing participating area. This
subsection does not apply to gas produced before 2022 that is used in the state. A reduction under this subsection may not reduce the gross value at the point of production below zero. In this subsection, "participating area" means a reservoir or portion of a reservoir producing or contributing to production as approved by the Department of Natural Resources.

(g) On and after January 1, 2014, in addition to the reduction under (f) of this section, in the calculation of an annual production tax value of a producer under (a)(1) of this section, the gross value at the point of production of oil or gas produced from a lease or property that does not contain a lease that was within a unit on January 1, 2003, is reduced by 10 percent if the oil or gas is produced from a unit made up solely of leases that have a royalty share of more than 12.5 percent in amount or value of the production removed or sold from the lease as determined under AS 38.05.180(f). This subsection does not apply if the royalty obligation for one or more of the leases in the unit has been reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar year for which the annual production tax value is calculated. This subsection does not apply to gas produced before 2022 that is used in the state. A reduction under this subsection may not reduce the gross value at the point of production below zero.

* Sec. 30. AS 43.56.160 is amended to read:

Sec. 43.56.160. Interest and penalty. When the tax levied by AS 43.56.010(a) becomes delinquent, a penalty of 10 percent shall be added. Before January 1, 2014, interest [INTEREST] on the delinquent taxes, exclusive of penalty, shall be assessed at a rate of eight percent a year. On and after January 1, 2014, interest on the delinquent taxes, exclusive of penalty, shall be assessed at the rate specified in AS 43.05.225.

* Sec. 31. AS 43.98 is amended by adding new sections to read:
