* Section 1. AS 36.30.040 is amended by adding a new subsection to read:

   (c) The regulations adopted under this section must contain provisions for prohibiting procurement of broadband Internet services from a telecommunications utility that

   (1) does not treat all Internet websites equally, regardless of content, source, or business relationship with the utility or others; or

   (2) engages in paid prioritization or vertical prioritization of Internet websites.
