Alaska oil production changes over time:
(1995 to 1998) and (2009 to 2012)

In 1995, total Alaska oil production was 1,484,000 barrels
In 1998, total Alaska oil production was 1,175,000 barrels
This is a 20.8% decrease in oil production.

In 2009, total Alaska oil production was 645,000 barrels
In 2012, total Alaska oil production was 526,000 barrels
This is an 18.4% decrease in oil production.
