The prayer was offered by the Chaplain, Pastor Tari Stage-Harvey, Shepherd of the Valley Lutheran Church. Senator Hoffman moved and asked unanimous consent that the prayer be spread. Without objection, it was so ordered.

In the Christian tradition today is Ash Wednesday. It is a day to remember that we are dust and to dust we shall return, to remember our mortality and the opportunity to turn our hearts from destruction to life.

It is a day of confession and so I offer the following prayer on behalf of those who would like to join in this confession on this sacred day.

We confess that we have sinned in thought, word, and deed by what we have done and by what we have left undone.

We have not loved as we are loved.

We have not forgiven as we are forgiven.

We confess the pride, envy, hypocrisy and apathy that infect our lives. Our self-indulgent appetites and ways, our exploitation of other people. Our neglect of human need and suffering and our indifference to injustice and cruelty.

Our false judgments and uncharitable thoughts toward our neighbors; our prejudice and contempt toward those who differ from us.

Our waste and pollution of your creation, and lack of concern for those who come after.

We are bold to confess because we trust in a love that restores us to life. We trust in a love that restores right relationship. Remind us of the precious moment, the dust to which we return and restore us in your love O God. Amen.

Senator McGuire led the Senate in the Pledge of Allegiance.

Governor's transmittal letter dated February 17:

Dear President Meyer:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill relating to establishing a municipal property assessed clean energy program.

Implementing energy efficiency measures in commercial buildings offers an opportunity for owners to reduce energy consumption. This not only can reduce operating costs to the building owner, but also can reduce energy demand on local utilities and improve the reliability of local energy and electrical systems. Financing energy efficiency measures can be a substantial barrier for building owners.

The bill would empower local governments to establish property assessed clean energy programs. These local programs would enable building owners to more easily borrow money from either the municipality or a private lender to implement energy efficiency measures by making property tax assessments available to ensure repayment of the debt obligation. Municipalities may issue bonds to fund a municipal lending. Building owners would voluntarily allow the local municipality to impose a tax assessment on their property. The tax assessment would be payable annually with property taxes, with the proceeds used to repay the lender or bond holders over the full life of the loan. Because the lender or bondholder would have a more assured revenue source for loan repayment, the financing costs should be reduced. The net effect of the program is that commercial building owners will be able to more easily implement energy efficiency measures. The owners will reap benefits from reduced energy and financing costs associated with the energy efficiency improvements.

The program would be known as the Municipal Property Assessed Clean Energy Act.

I urge your prompt and favorable action on this measure.

Sincerely,
/s/
Bill Walker
Governor
